Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Response to Amendments

1. Applicant's amendments with respect to claims 1-3, 5, 7-11, 15-16 and new claims 17 - 25 filed 09/27/07 have been accepted and are therefore pending. Some of the amendments however have introduced new claim rejections. Applicant's amendments to the specification have also been entered.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 20 and 24 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. According to Applicant's remarks, support for new claims 20 and 24 is found at least at page 3, lines 32 to page 5, line 26, however disclosure of "a second media access code" and "the received media access code" are not apparent. While cited passages of the Applicant's specification disclose the process of authenticating a message between a sender and recipient based on the message authentication code and a selected publicly known constant, "a second media access code" and "the received media access code" is inconsistent with the disclosure. If the Examiner has erred in this assessment, kindly identify specifically what portions of the disclosure teach "a second media access code" and "the received media access code".

Response to Arguments

3. Applicant's arguments, see pages 11-12, filed 09/27/07, with respect to claims 1-3, 5, 7-11, and 15-16 have been fully considered and are persuasive. Particularly persuasive is Applicant's assertion that the timestamp, interpreted by the Examiner to be equivalent to Applicant's publicly known constant, is not used by the cryptographic hash function to generate a message authentication code. The 102(b) Connery et al and 103(a) Connery et al. and Sibert issued in the non-final rejection dated 06/28/07 has been withdrawn.

Allowable Subject Matter

4. The following is a statement of reasons for the indication of allowable subject matter: With regard to claim 1 and similar independent claims, the prior art of record fails to reasonably show or suggest, authenticating a message between a sender and recipient based on a message authentication code and at least one publicly known constant. Therefore claims 1-3, 5, 7-11, 15-19, 21-23, and 25 are allowable.

5. Claims 20 and 24 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 1st paragraph, set forth in this Office action.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37

CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
